

UNIFIED SCHOOL DISTRICT OF ANTIGO

GROWING ANTIGO TOGETHER

Capital Referendum on Tuesday, November 5th

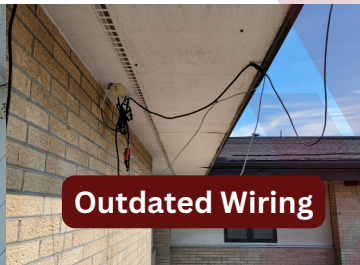

The Unified School District of Antigo's elementary schools have served us well, yet they have reached the end of their intended life. Our school district is facing **significant challenges** with these facilities and the aging infrastructure.

After extensive research and discussion, the board decided to place a **\$54 million capital referendum** question on the November 5th ballot to build **one new elementary school building** and address the most urgent maintenance needs at **Antigo Middle School and Antigo High School**.

Our Needs

Water Infiltration

Outdated Wiring

Inadequate Learning Spaces

ELEMENTARY

The current elementary school buildings are over 60 years old and have significant facility needs, including:

Safety concerns including unsecured access to students and lack of fire sprinkler protection

Failing windows and asbestos material throughout the buildings

Water damage and infiltration

Need for additional classrooms and spaces to provide highest-quality education

Schools are not up to ADA standards and restrooms are not ADA accessible

MIDDLE / HIGH

At the middle and high school, the most pressing issues to be addressed include:

Safety concerns caused by outdated fire alarm system

Need for updated electrical systems and interior lighting

Failing heating and cooling systems

Worn and outdated interior doors, frames, and hardware

Deteriorating and damaged flooring

Possible Solutions

4K-4th

5th-8th

9th-12th

On **Tuesday, November 5th**, residents will have the opportunity to vote on a \$54 million referendum to provide funding for the construction of a new elementary building and to address the most urgent maintenance needs at Antigo Middle School and Antigo High School.

IF A REFERENDUM IS APPROVED, IT WOULD:

Allow 4th grade students to move back to the elementary level and 8th grade students to the middle school

Provide dedicated space for art, music, technology, library, physical and special education for improved instruction, services, and student behavior

Ensure green space for playground and a kitchen for onsite food preparation

Save money in utility costs, transportation expenses, required staff, and maintenance of land-locked, aged-out buildings

Invest in providing **all students**, from preschool through high school, with a safe learning environment

TAX IMPACT

If a referendum is approved, the **State of Wisconsin** will fund a large portion of the project, which significantly reduces the impact on taxpayers.

\$54 MILLION Total Project Cost

\$31 MILLION Cost to Taxpayers

Tax Impact: \$1.00 per \$1,000

\$100 per year for \$100,000 home

Only \$8.33 per month

For \$0.27 per day, we can positively impact the future for our students and community!
